LUSITANIA OFF AGAIN

Liner Rams Pier Twice in Getting Away.

IN BETTER SHAPE FOR SPEED

Her Admirers Expect Her to Make Trip in Less Than Five Days-Cargo Makes Her Draw Thirty-three Feet of Water-Senator Hale and Other Prominent Passengers Aboard.

New York, Sept. 21.-Crashing twice into her pier, just before her departure for Liverpool this afternoon, on her return trip, the giant Cunarder Lusitania scratched many square yards of paint from her prow, partly demolished the dock, and created a panic in which two persons were painfully hurt.

While testing her screws she snapped one of the six-inch steel hawsers which bound her to the dock, rammed the bulkhead at the pier end, ripped her gangplanks from their fastenings, and hurled passengers who were boarding her to the pler. The terror-stricken throng on the pier knocked down and trampled on several women and children.

New hawsers were obtained and the ship was again made fast to the pier, but on starting really to get under way, she crashed into the structure a second time, splintering sections of piling from their fastenings and starting a report that the vessel was seriously damaged. After an examination it was announced that no serious harm had been done, and the monster craft was warped from her dock Slow Job Turning Her,

She left her pier at 3:40 o'clock, and was cheered heartfly by the crowds of sightseers who had gathered on the pler and in the neighborhood. She just drifted slowly out into the stream, and then, assisted by tugs, swung around and headed toward the sea. It was a rection. Rome, Sept. 21.-Bound to the clapper and crushed to death in the biggest bell of the famous Malalbergo chimes, the parson of the church from which the notes sounded paid horribly this week for wrecking the home of the ringer who compassed his punshment. Mrs. McKee to Rush Divorce Suit. Paris, Sept. 21.-Mrs. Hart McKee has returned to Paris to consult her father concerning her divorce case, which she hopes to rush through when court reassembles in October. Those familiar with French legal methods fear, however, that it will be prolonged, as usual in France with litigations where fortunes are at stake, the fees being enormously increased by continual adjournments.

Mrs. Storer was more disposed to talk than her husband, but she refrained when he advised her to say nothing. Then the third term question was put to Mrs. Storer, and she laughed even more heartily than her husband. They left for Cincinnati to-night.
